WHAT DISTINGUISHES US

Safety of the product guaranteed by **TUV** and **DIN**. Availability of standard metrical and imperial dimensions. Stage decks are based on light and specially designed aluminum profile, which clenches the plywood into desired shape. All accessories (self-leveling inserts, clamps, grips, mounting inserts for curtains or banners) are safe and ensure easy configuration.

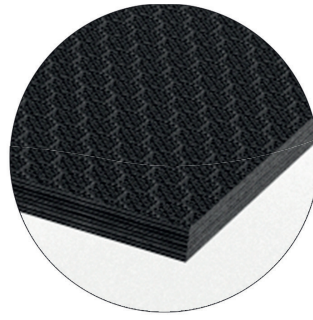

JOINING GLUE

High quality polyurethane glue provides 100% connection between the profile and plywood.

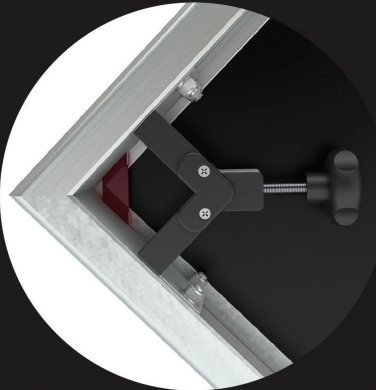

SEALING FOAM

Layer of special sealing foam provides tight profile-plywood connection.

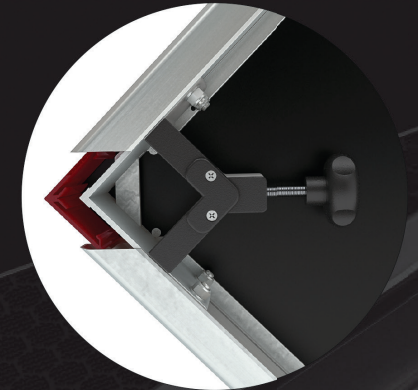

BIRCH PLYWOOD

Highest quality of waterproof and durable birch plywood with 12 mm thickness is confirmed with certificate.

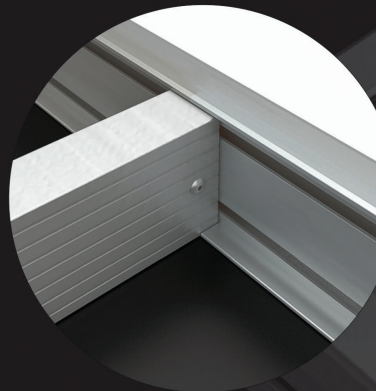

LEG BRACKET

Additional bracket improves safety and stability of the stage deck.

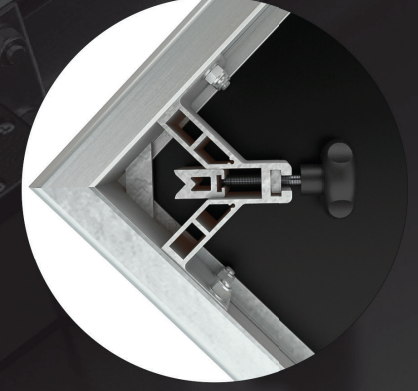

REINFORCED CORNERS

Additional element used in the inner part of the profile strengthens the product and increases its life cycle.

SINGLE STRENGTHENING CROSS BEAM

One cross beam and special construction of the profile ensure full stability.

NEW UNIVERSAL CORNER

Allows mounting both round and square legs 50x50mm and 60x60mm without changing the insert corner.
